

# TERM THREE NEWSLETTER

W41 YEAR 6 | MIKAELA CACCIOTTI

## Welcome Back!

Another term down, another one begins! This term looks to be jam-packed! We have aquatics to look forward to and a visit to a local café called *Indulge*. We will be exploring many different topics this term!

## English

Reviews! Throughout the year, W41 have been focusing on review writing. So far, we have reviewed our Parliament House excursion and our novel *A Corner of the Universe* from last term. This term, we will be taking a trip to Indulge café to learn about how to run a business and we will be reviewing the food. We will also be looking at procedural texts, which will tie into our STEM and Business and Economics unit and information reports.

## Mathematics

This term we will be looking at fractions, percentages and decimals. We will be investigating how each of them are connected to each other and how we use each of them in the real world. We will also be focusing on financial maths which will be tying into our STEM unit. Throughout the term, we will be investigation shape and how it relates to nets of particular three-dimensional shapes. Data will also be an area we learn about - understanding the journey of data and how we use it in our everyday lives!

## Website

Please ensure that our website, <https://classofw41.weebly.com/> is being checked regularly. This is where homework is posted, along with their weekly question. Any important dates or notices will be posted on the website as well as a 'contact' button for any parents or caregivers to access should they need to get in contact with me.

I look forward to the journey ahead and seeing what W41 can accomplish this term!

Kind regards,

## HASS

This term, we will be looking at Business and Economics and learning about how to run a successful business. We will be teaming up with W42 and W43 to create a sustainable café.

## SCIENCE

For our science, we will be looking at Chemical Sciences. We will be focusing on changes to materials that are reversible and irreversible. We will be experimenting and demonstrating our understandings as a whole class.

## STEM

STEM this term will be focusing on how to create a sustainable café. This will be running for both terms 3 and 4.

## AQUATICS

This term all year 6's and 7's will be attending Aquatics at Henley Beach. This will be a full day excursion and will be returning after school has finished.
